

# SALE OF STUDENT'S WORK

*This policy explains the GB Workcentre rules regarding sale of students work. Students on courses may sell their work either at the end of the course exhibition or at some later date.*

*Items or articles made ARE NOT TO BE SOLD OR GIFTED during the course.*

We recommend that tutors:

1. encourage trainees to focus on completing work for the design, learning and production process rather than a means of generating income;
2. confirm the method of allocating materials at the commencement of the module they are teaching;
3. allocate materials at their (tutor's) own discretion;
4. remind students that those students wishing to produce extra items will need to purchase extra materials at their own cost;
5. retain students work on-site until the End of Course Exhibition
